

Monty Tech Summer Math

All incoming freshman students are required to complete Summer Math Assignments

Why Summer Math?

The purpose of these assignments is:

- to keep student's math skills fresh over the summer months
- to better prepare students to be successful in their next level of math
- provide teachers with a "math profile" of each student in order to provide support.

Will the assignments be graded?

Yes. These assignments will be graded for effort only, meaning that 100% completion means a grade of 100%! Grades on individual assignments will be used only to address any gaps in math skills.

How do I access the assignments?

All assignments will be accessed and completed online using a free computer based tutoring program called ASSISTments. You will need to create an ASSISTments account if you don't already have one.

How do I create an ASSISTments account? Follow the step-by-step instructions below:

If you DON'T already have an ASSISTments account:

- 1) Access the ASSISTments website at <https://www.assistments.org/>
- 2) Click on the BLUE create an account button.
- 3) Under Create an Account click I am a student.
- 4) Enter the enrollment code: **ba6gvn** and click "check".
- 5) Verify the Class Information as "I will be entering 9th grade" and click **OK**.
- 6) Scroll down until you see the box for Student Information.
- 7) Fill out your student information: First Name, Middle Name (if you have one), Last Name, Birthdate (make sure to enter in the Month, Day and Year), email address, confirm email, leave the time zone alone, School Password: **1234**, confirm password.
- 8) Read the Terms of Use and Privacy Policy. Click the box accepting the terms of use.
- 9) Click the register button.

10) You will be brought to a new screen. This screen will provide you with your login for ASSISTments. ***Be sure to record and keep both your Login username and your password of 1234.*** You will need these to access your assignments later.

11) After recording your login username and password click **OK**.

12) Click on the folder titled “ALL Freshmen Required Math Assignments”, you should see 12 assignments. ALL freshmen must complete these 12 Assignments! Make sure to complete #12 and #11 first, in order to know how use the system. If you are an Honors student, the assignments in the second folder titled “ Only Freshmen entering Algebra 2 Additional Summer Math Assignments” must be completed in addition to the first. See the instructions on page 3 for more information on completing your Summer Math assignments.

If you DO already have an ASSISTments account from Middle School:

1) Login using your Login username and password from Middle School.

2) Click on “Classes” in the upper left hand corner.

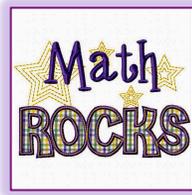

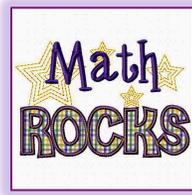

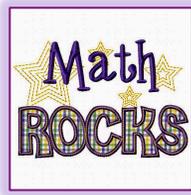

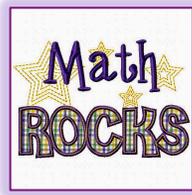

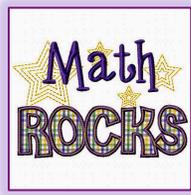

3) Click on the underlined “Enroll in a Class”.

4) Enter the Enrollment Code: **ba6gvn** and click “enroll”.

5) Verify the Class Information as “I will be entering 9th grade” and click **OK**.

6) You will be brought to a new screen. Click on the folder titled “ALL Freshmen Required Math Assignments”, you should see 12 assignments. ALL freshmen must complete these 12 Assignments! Make sure to complete #12 and #11 first, in order to know how use the system. If you are an Honors student, the assignments in the second folder titled “ Only Freshmen entering Algebra 2 Additional Summer Math Assignments” must be completed in addition to the first. See the instructions on page 3 for more information on completing your summer math assignments.

**CONTINUE ON TO PAGE 3 FOR INSTRUCTIONS ON COMPLETING
YOUR SUMMER MATH ASSIGNMENTS**

Instructions For Getting Started Completing Summer Math On ASSISTments

1. After creating your account and recording your login and password, go to www.assistments.org
2. Click on Log In (upper right hand corner).
3. Enter your Username Login and Password (1234).
4. The screen will open to your “class” called “I will be entering 9th grade”.
5. Click on the assignment folder “All freshmen required Summer Math Assignments” to open up your required Summer Math assignments. **All freshmen must complete these 12 assignments.** *
** If you are an Honors student you will complete an additional folder of assignments titled “Only freshmen entering Algebra 2 Additional Summer Math Assignments” for a total of 20 assignments. All students are welcome to complete both assignments.*
6. Click on the Getting To Know ASSISTments assignment at the top of the list, for a lesson in how ASSISTments works. Answers need to be entered in a particular way, so make sure to do the “Getting To Know ASSISTments” Assignment labeled #12 first!
7. Each assignment consists of a math topic skill builder. These skill builders require students to complete 3 problems correct in a row in order to be able to move onto the next assignment. If you are experiencing difficulty, hints and breaking it into steps features provide assistance. The “Introduction to ASSISTment” assignment labeled #11 will explain this. The system shuts off after 10 incorrect answers in a row and will not open up again until the next day for students to try again.
8. Each assignment will be show a grade when completed, but this grade will only be used to address skill gaps and provide support. When all assignments are completed, students will receive a grade of 100% when beginning their math class in the fall. You may return to the list of assignments at any time by clicking on the “assignments” tab in the upper left-hand corner.
